#### \$600 Theft Of River Rises Tires Reported

Springfield, Mass. April 11. — A flood crest of 22 feet in the Connecticut river; the highest in several years, has surrounded White River junction, and the lower reaches of the river rose today to new high points for this season, flooding lowlands at many points. Eleven feet several inches of Burglars who apparently gained entrance by forcing a rear window last night stole 13 tires valued at \$600 from the garage conducted by Herman Tober, 1184 Broad street. The break was reported to the police this morning by Tober who discovered to the day's business at 8 o'clock. Outside of a few jimmy marks no clues were left by the intruders.

The window which is located in the rear of the store faces an alley that enters from Elm street and it is believed that the tires were taken out through the rear window and then a motor truck was backed up and the tires carted off. The tires were in a small room that is used as an office of the garage and it was necessary for the burglars to first force a look that barred their entrance to this room. This was done with the aid of a Jimmy.
